

About the Basic Course

The Core Belief Engineering Basic Course is an absorbing four days of lecture, discussion, live demonstration, and hands-on application. It includes the opportunity to personally experience the powerful CBE Belief Change Process.

Your Course manual gives you the outline of how to use the CBE process with yourself. You receive quality instruction and supervision in an environment that is confidential and secure.

THURSDAY: Lecture and discussion on the Mind, Beliefs, Consciousness, and elements of change. Demonstration and exchange of benefit Structure Process. Detailed explanation of the CBE model.

FRIDAY: Live demonstration of the CBE Belief Change Process.

SATURDAY AND SUNDAY: One-on-one supervised exchanges of the Belief Change Process.

This course, while complete within itself gives you the foundation for further, more advanced courses in Core Belief Engineering that follow. All Core Belief Engineering Processes are copyrighted and unique. You cannot get this depth of instruction or effectiveness elsewhere.
